

Want to work with Top Companies in Silicon Valley?

# Join the **M.S. Program in MATERIALS ENGINEERING** at SJSU!

## GETTING STARTED

### PROGRAM DETAILS

- 30 units requirement
- 5 core MatE courses\*
- 3-4 elective courses
- 2-3 research project courses
- Graduate classes are in the evening for the convenience of working students

\*Students without a B.S. in MatE need several additional undergraduate courses

See details at [sjsu.edu/cme/programs/materials-engineering-ms/index.php](https://sjsu.edu/cme/programs/materials-engineering-ms/index.php)

## APPLICATION DETAILS

### PREREQUISITES

- B.S. degree in Materials Engineering**  
Or closely related degree in Engineering (Chemical, Mechanical, Biomedical) OR science (Chemistry, Physics)
- GPA of 2.7 or above**  
In last 60 units of B.S. Degree
- TOEFL or IELTS\***

\*For international applicants

## AVERAGE PROGRAM LENGTH

**2 YEARS, Full-Time**

## WORK WITH FACULTY ON RESEARCH IN

- Batteries
- Additive Manufacturing
- Biomedical Devices
- Nanocomposites
- Molecular Simulations
- Biomaterials

## APPLICATION DEADLINES

### Domestic Applicants

May 1, 2022 for Fall 2022

December 1, 2022 for Spring 2023

### International Applicants

April 1, 2022 for Fall 2022

November 1, 2022 for Spring 2023

## RECENT GRADUATES RECRUITED BY

- Lam Research
- Stryker
- RheoSense
- NASA
- Intel
- Informatica
- IBM
- Lockheed Martin
- Apple
