GE A3 Course Description

In critical thinking courses, students will understand logic and its relationship to language. Courses include a series of integrated reading, writing, oral, and research assignments that engage students in complex issues requiring critical thinking and effective argumentation. Students will develop language that distinguishes fact and judgment; articulates elementary inductive and deductive processes; parses fact, assumption and conclusion; integrates rebuttal and qualification as appropriate. Students will develop the ability to analyze, criticize, and advocate complex ideas, reason inductively and deductively, research and rebut information and arguments, and reach well-supported factual conclusions and judgments.

ENGL 1B Course Description

English 1B focuses on the relationship between language and logic in composing arguments. Students develop strategies that incorporate critical reading and thinking skills into the writing process. Drawing on systems of analysis from rhetorical theorists and logicians (for instance, Aristotle, Rogers, and Toulmin, among others), students learn systematic reasoning so that they can lay out premises clearly, provide evidence, and draw valid conclusions. Reading a variety of texts, students study conventions of formal writing as well as textual cues that control the development of logical inferences.

ENGL 1B Section Description

Food: Nothing seems as simple as the fact that food is an important component of our lives. However, as a species, we have come a long way from the days when acquiring food formed a major part of our daily lives. For most Americans, nowadays, food is relatively cheap and abundant. Because of this surplus and our never-stop-moving lifestyle, we have drastically altered our relationship with food: what we eat, how we eat, where we buy our food, where we eat it, and what we think about it. Throughout this class, we will use articles, advertisements, and our own experiences to explore various issues regarding food and the American lifestyle.

ENGL 1B Learning Outcomes and Course Content

GE A3 Learning Outcomes (GELO)

Students will demonstrate, orally and in writing, proficiency in the Area of A3 Learning Objectives. Students will be able to

1. locate and evaluate sources, through library research, and integrate research through appropriate citation and quotation.
2. present effective arguments that use a full range of legitimate rhetorical and logical strategies to articulate and explain their positions on complex issues in dialogue with other points of view.
3. effectively locate, interpret, evaluate, and synthesize evidence in a comprehensive way in support of one's ideas.
4. identify and critically evaluate the assumptions in and the context of an argument.
5. effectively distinguish and convey inductive and deductive patterns as appropriate, sequencing arguments and evidence logically to draw valid conclusions and articulate related outcomes (implications and consequences).

ENGL 1B Course Learning Goals (CLO)

Upon successful completion of the course, students will be able to

1. discuss complex ideas clearly, logically, persuasively.
2. state a clear position while taking into account other points of view, integrating both qualification and rebuttal as appropriate.
3. identify the different kinds of argument and the kinds of evidence appropriate to each one.
4. integrate research logically and ethically; analyzing, interpreting, synthesizing, and documenting information and ideas gleaned from reliable sources.
5. use appropriate paragraph and essay conventions to organize arguments into clear, readable logical sequences that are both coherent and persuasive.
6. control syntax, grammar, and punctuation to develop prose that is readable, logical, and clear.
7. identify formal argumentative structures (warrants, evidence, qualification, rebuttal, enthymemes and syllogisms) and distinguish common logical fallacies.
8. draw and assess inferences and recognize distinctions among assumptions, facts, inferences, and opinions.

ENGL 1B Course Content

Diversity: SJSU studies include an emphasis on diversity. Students will engage in integrated reading, writing, and oral assignments to construct their own arguments on complex issues (such as diversity and ethnicity, class and social equity) that generate meaningful public debate. Readings for the course will include writers from different ethnicities, gender, and class.

Writing: Students will write a series of essays informed by research and articulating fully developed arguments about complex issues. Assignments emphasize those skills and activities in writing and thinking that produce the persuasive argument and the critical essay, each of which demands analysis, interpretation, and evaluation. Writing assignments give students repeated practice in prewriting, organizing, writing, revising, and editing. This class requires a minimum of 6000 words, at least 4000 of which must be in revised final draft form. Assignments include both in-class writing as well as revised out-of-class essays.

Students will receive frequent evaluations of their writing from the instructor. In keeping with the core goal of A3—understanding the relationship between language and logic—evaluative comments will be substantive, addressing both the logic of the argument and the quality and form of the writing. Comments will encourage and acknowledge student success as well as note problems and suggest ways to improve.

Logic: Students will learn methods of argument analysis, both rhetorical and logical, that will allow them to:

- distinguish denotation from connotation, abstract from concrete, literal from inferential.
- identify logical structures (such as warrants, evidence, qualification, rebuttal; enthymemes and syllogisms) and distinguish common logical fallacies.
- recognize and evaluate assumptions underlying an argument.
- draw and assess inferences and recognize distinctions among assumptions, facts, inferences and opinions.
- distinguish the role of audience, context, and purpose in shaping argumentation strategies.
- evaluate rhetorical appeals to understand the role of emotion and ethos in relation to logic as part of effective argumentation.

Oral: Students will also complete oral communication assignments. These assignments may include individual presentations; group presentations; group, team, or dyadic discussions; debates; and similar speaking events. Evaluative comments for these assignments, addressing issues of both content and presentation, will substantively remark on the logic of the argument as well as the presentation's delivery.

Reading: In addition to being an intensive writing course, ENGL 1B is also a reading course. Readings include useful models of writing for academic, general, and specific audiences; readings are used consistently with the course goal of enhancing ability in written communication and reading. The majority of the reading is devoted to analytical, critical, and argumentative texts. Instructors will help students develop and refine strategies for reading challenging, college-level material.

Research: A3 courses will include a library orientation conducted or approved by a trained librarian to introduce the library and basic research strategies that students will need to complete upper-division coursework, including locating materials, using them effectively (e.g., quoting, paraphrasing, summarizing), and citing them properly. A traditional research paper or a series of short essays informed by library research is required.

ENGL 1B Section-Specific Requirements and Assignments List Individual Course Requirements

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in [University Policy S12-3](http://www.sjsu.edu/senate/docs/S12-3.pdf) at <http://www.sjsu.edu/senate/docs/S12-3.pdf>.

Written Assignments:

Students will write a number of diverse papers designed to incorporate the concepts of critical thinking to display that students' ability to organize, recognize, and present the material in a clear and reasoned fashion. All written work (unless otherwise noted) will be graded for content, organization, format, and grammar.

Short forms: One in-class essay will assess students' ability to read and analyze a short text, and then organize a unified and coherent response. "Two-Pagers" will provide a background in various modes of critical thinking and pave the way for the two, longer, Formal Writing Assignments. An in-class Journal and homework Thinking Paragraphs will serve to collect thoughts and prepare for discussion.

Formal Writing Assignments: There will be two formal writing assignments, a 1250-word Critical Essay, and a 1500-word Persuasive Argument. Both will require research and both will undergo at least one complete revision.

Oral Presentation:

Multi-Modal Presentation: As a culminating (final) course activity, students will present in support of or in opposition to an issue discussed in class. Presentations must contain visual, written, and audio design elements. Students singly, in pairs, or small groups must prepare a short (10-15 minute) multi-modal presentation using video (podcast), PowerPoint, Poster-and Discussion, or any other instructor-approved format.

Reading:

Our principal text will be *Thinking for Yourself*. We will read major portions, work with the exercises, and take the Chapter Summaries. In addition, we will read a number of essays from *Food Matters*. This collection of food-related essays will form the backbone of the course discussions. The short text, *Critical Reading and Writing* is bundled free with *Food Matters* and will serve as a source for writing instruction as needed.

Grading Policy

Requirements for particular assignments will vary, but in all cases essay grades will reflect the paper's effectiveness, which I have broken down into three major areas: content (this includes maturity and sophistication of thought), organization, and expression. All assignments, quizzes, and exams are graded on a traditional A-F scale.

The following are the criteria by which essays are typically evaluated in first-year writing courses:

An "A" essay is organized and well-developed, demonstrating a clear understanding and fulfillment of the assignment, written in a unique and compelling voice. It will show the student's ability to use language effectively with a solid command of grammar, mechanics, and usage.

A "B" essay demonstrates competence in the same categories as an "A" essay, but it may show slight weakness in one of these areas. It will respond to the topic suitably and may contain some grammatical, mechanical or usage errors.

A "C" essay will complete the requirements of the assignment, but it will show weaknesses in fundamentals, such as development. It may show weakness in mastery of grammar, mechanics, usage, or voice.

A "D" essay will neglect to meet all the requirements of the assignment or may be superficial in its treatment of the topic. It may lack development or fail to stay on topic. It may contain grammatical, mechanical, and/or usage errors that interfere with reader comprehension.

An "F" essay does not fulfill the requirements of the assignment.

Grades Determined by:

In-class essay	10%
Two-Pagers (4)	20%
Editorial & Paragraph Homework	5%
Journal	5%

At the end of the semester, your overall course grade will be calculated as follows:
