SJSU Cyber Awareness
State of Security 2024: The Race to Harness AI

Audra Streetman
Security Strategist, SURGe
Splunk

Cory Minton
Field CTO, Americas
Splunk

In this webinar, our speakers will cover how security teams will navigate the new frontier of generative AI – all while facing tightening compliance regulations and rising geopolitical tensions.

We will also discuss how non-tech majors can participate in competitive job opportunities.

- How security teams are managing Gen AI challenges
- The impact of new compliance rules and global tensions
- How non-tech majors can tap into emerging job opportunities
