

ITALY - PSYC

FACULTY-LED PROGRAM

SUMMER 2027

THE CULTURED PERSONALITY

Have you ever wondered whether people in other cultures have different personalities than you and your friends? What impact does traveling, living abroad and having multicultural experiences have on how we behave, think, and feel--in other words, on our personalities? If you have or want to find out, then this course is for you. We take the concept of the psychology of personality--traits, motives, drives, values--and apply them to a cultural context in one of the most beautiful places on earth--the western central coast of Italy (Ischia, Naples, Pompeii, Amalfi Coast).

Highlights

- Day trip to Procida and farm visit to see how Limoncello is made
- Day trip to Island of Capri
- Cooking Class
- Yoga & Meditation and Natural Springs
- Pasta factory tour
- Guided tour of Pompeii
- Day trip to Sorrento and another to the Amalfi Coast (Positano, Amalfi)
- hiking Castle of Aragon
- tour of mozzarella factory and cooking class
- Bus tour of Island of Ischia and meeting local artisans
- Thermal Baths
