## Lobby Aesthetic Upgrades

Over winter break, you will see upgrades to the Provident Credit Union Event Center lobby – new flooring, ceilings, walls, and Spartan graphics will help the aesthetics of the facility until we get into full remodel!

## Esports Center Design

We are in the process of designing an Esports and Gaming center in the Student Union. This will place SJSU squarely at the lead of facilities across the country and be a great staging point for student recruitment and connections to Silicon Valley partners!

## Expanded Event Staffing

As we continue into 2026, we will be dedicating an additional two full-time staff to serving groups utilizing Event Services in the Student Union. This is an effort to improve our services and customer experience!

## Esports Championship

Speaking of Esports...a couple of our teams competed in the Mountain West championships – a narrow loss in College football to Boise State, but our Smash Brothers team claimed the title!

## Bowling & Billiards

Now is a good time to come in and do some bowling or billiards at the lower level of the Student Union! Best rates for you and your family to play in town!

## Student Union Overview

As an auxiliary and 501(c)(3) on campus, the Student Union, Inc. manages the SU, Provident Credit Union Event Center, and SRAC. As a student-fee funded area, we support students and SJSU through facilities, services, and campus programs.
